User reviews 4.7 / 5 16 Ratings 16 Ratings Nice , 21/07/2018 Not that great I love the idea of this, and it will get the job done, in a clean, uncluttered way, as I've come to expect from Lightroom Mobile - but... the interface on Windows 10 is a bit tricky for me, as is the default windows picture viewer - and I have yet to figure out a good way to import my pictures into the app. I think that its a good app, but needs some work. Rating Great , 14/05/2018 Works great with Instagram uploads This is really useful for your photos, or for people who prefer to have a jpg compressed image from Instagram instead of a large image. I would love to see more advanced options like those in Lightroom Mobile. It would also be nice to have a way to enable it for more than just one photo at a time. Rating Great , 17/03/2018 Good app I use to have this app (JPEG Optmizer) on my android phone and it took the photos from my phone directly to this app and it was awesome. Now I have the same app in my computer and it's just great. 09e8f5149f
