

Mathcad Prime 3.1 is designed for users who need to integrate Mathcad with their existing tools and workflows. . Mathcad Prime 3.1 has a new user interface that makes it much easier to work with the program. Now, when you create a new project or open an existing one, you can see a preview of all the variables, functions, and formulas in Mathcad. It allows you to create, edit and modify files directly from your computer. In previous versions, to make changes to a project, you had to log out of Mathcad and log back in.
