Jun 3, 2019 The map is at "Move to the center and press (A). "

$$\zeta(s) = 1 + \sum_{n=1}^{\infty} \frac{\zeta(n+s)}{n!}.$$
 This function is entire of rapid growth with respect to the usual growth if s is in the half-plane $\operatorname{Re} s > 0$, and in that case, it has an analytic continuation to all of the

complex plane except for a discrete set of points. If $s \in i \mathbb{R}_+$ and $\sigma > 1-s$, then $\zeta(s) = \pi^{-s} \Gamma(1-s)$. For $s \in \mathbb{R}$, we have the asymptotic expansion

$$\zeta(s) = (s-1)^{-1} + \mathcal{O}((s-1)^{-2}), \quad s \rightarrow 1^+,$$

from which it is not hard to see

that $\zeta(2) = \pi^2/6$ and $\zeta(3) = 0$. [¹]: this work is supported by Discovery Grant RGPIN-2017-04554 from Natural Sciences and Engineering Research Council of Canada (NSERC) Shahid

Khan's Son Joins Dungatar Athletics Club
Dungatar's Shaz Maher has played and coached for England and represented her country at the Commonwealth Games and Olympics.
Shaz Maher: His coach and friend Mark Shaw: Jonny Edwards and Martin Howell from the Dungatar Athletics Club: Dungatar's Shaz Maher and his father, Shahid Khan, play rugby union for the Dungatar Club and there was plenty of family support on the day.
Shaz Maher got his opportunity to play in the Division two rugby game, which is

the equivalent of U-15s, when we had an injury to a player. I would say Shaz has been around [for a while] but he will have been developing as he has been fit and developed in training. He's turned out for several training sessions and hopefully he'll play this match, too. It's a great team, they put in some pressure and they
