FIFA is the world's biggest and most popular sports video game franchise and the FIFA franchise is the #1 football videogame series in the world. FIFA offers a true experience of authentic football with a team-based approach of competition that fans can enjoy from beginning to end. What's new in FIFA 22? Player Intelligence FIFA 22 delivers the most authentic and realistic player intelligence in the history of the franchise with player models that are more detailed and animated than ever before, coupled with robust real-world attributes. New passing and defending positions, movement and reaction times, tackling techniques, and more make the attacks of your opponent's team more unpredictable in FIFA 22. Team AI FIFA 22 introduces revolutionary Artificial Intelligence (AI) for teams which will now react to the game in more dynamic and intelligent ways. Players will be asked to make more tactical movements throughout the game, and will think more quickly and automatically analyse situations before reacting. As a result, players will make smarter decisions. New Features FIFA 22 includes a comprehensive range of new features including team AI, improved defending systems, and new player models and animations. Improved goal celebrations and fan experiences will also be available, along with expanded league systems with more leagues available to play and new modes like Team Battles. Upgraded Broadcast The in-game broadcast is fully reworked for FIFA 22. Advanced cameras, crowds, commentators and more have been added to give fans a better viewing experience. Plus, Fan-Interaction and dedicated content will be introduced for the first time. Redefined CMs The CMs have received a dramatic makeover and have been completely redeveloped for FIFA 22. New play-by-play and tactical analysis commentary modes will be available and players will have the ability to send tactical messages to their teammates and coaches. Improved User Interface The new UI is easy to use with simple navigation and intuitive functions. The new interface gives fans more information at the touch of a button by displaying players' attributes and statistics, the way players perform key actions, results of player behaviour, and more. Developer Commentary The game features a new level of developer commentary that gives fans an inside-look at the creation process of the game, with constant interactivity from the developers. Fans will even be able to contribute their ideas as developer commentary in-game. Better Club
