What's new:

. Because the core gameplay of this rogue-like horror game by NCL felt rather uninteresting to me, I decided to take a break from those series and I started playing Touhou Koi-Mystery: Legend and Fantasy of Monsters. This weird mini-series of game will be, as the sequel of Touhou Koi-Mystery: Alphabet of Dragons, a mobile survival game with monster hunting as the core gameplay. Compared to Touhou Koi-Mystery, this game has less story content and more base gameplay, very similar to old clock-playing rogue-like games like Darkplay: Legend of Sadness. Previously, I played Touhou Koi-Mystery mostly for the Touhou Project fanfic writing connection and the atmosphere NCL's game provides, but this period of our game series was a little bit too easy for me. After the destruction of Gensokyo and the end of Weekly Shounen Magazine, things kinda went downhill for the Touhou Project game series. The drama and stories of the Ao (Also Known As) starts falling apart, the atmosphere of the game started to become more stale, and then it fell in an abyss of melancholy, the kind of unbearable sadness that you have to suffer every time you play Touhou Project games. It was a stage that I had never wanted to revisit for the past few years, and I somehow walked right into the center of the stage, knowing that it wouldn't make any sense. Like Unseen Talkies, most of the fans decried a revival of the Touhou Project game series just because they wanted it to be the same as it was, but that is a stupid move, it does not make any sense at all. The fans have to understand that these two dev team are not going to waste their energy on enforcing the rules and dragging it down with them. They want to make Touhou Project games free of the shackles that hold the series in the gutter of English metacriticism and Japanese otaku abuse. They want to do something new, something unique, and they want new people to join them as they explore this forgotten period of Tezuka's manga, the days when monsters ruled the land, our horizons were wider, and magic kept the world in balance. When you do something original, you also get to lose a lot of the things that seem so important but are usually just for show. 1) No gashapon system.

Cube Full of Mines is a classic local multiplayer party game for up to 4 players. Your task is to navigate 3-6 cubes that are laid out on a grid. You do this while trying to clear the board of all the cubes that are on it. Cube Full of Mines has 3 game modes: 1. Minesweeper: In minesweeper mode all you need is to clear all the cubes that are on the board. 2. Best of 1: In this mode you play 1 game with the risk of being eliminated at any time and need to make the most of your moves. 3. Best of 3: In this mode you play 3 games with the risk of being eliminated at any time. There are 3 different game types in this DLC. • Minesweeper – The original game type in Cube Full of Mines. • Minigame One – A minigame designed for 2 players to play together. • Minigame Two – A minigame designed for 3-4 players to play together. • Minigame Three – A minigame designed for 3-4 players to play together. Every game type in Cube Full of Mines has 3 difficulty levels. • Easy – The game is harder than usual but still playable. • Medium – The game is more challenging than in normal mode. • Hard – Playing in hard mode is not recommended as it will severely challenge your time. About the Game Modes: Minesweeper In Minesweeper mode the goal is to clear all the cubes on the board. Best of 1 In best of 1 mode you have 10 minutes to clear the board. However, only one player can play, not your entire family. If you are eliminated before 10 minutes, you are eliminated and then your time ends. If another player is eliminated, you are allowed to challenge him/her to continue playing. In the end, only one of the players will be able to claim the crown. Best of 3 In best of 3 mode you have a time limit of 60 minutes. All the players will have the same number of lives. Whenever you kill a player, the remaining players get an extra life. If you are eliminated from a game, you will be eliminated. You can challenge someone to play one more game. In the end, the person with the most coins wins. The game is fairly easy to learn as it follows a very simple design. In simple terms
